## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 3, 12, 14-20, and 22 drawn to a liquid crystal device with a particular type of black matrix, classified in class 349, subclass 110.
- II. Claim 5, 12, 14-15, 18-20, and 22 , drawn to a liquid crystal device with an insulation layer in addition to the leveling film on the transistor substrate, classified in class 349, subclass 138.
- III. Claims 4, 6-7, 9, 10-11, and 12 –23, drawn to a liquid crystal device with a particular type of black matrix, and an insulation layer in addition to the leveling film on the transistor substrate, classified in class 349, subclass 138.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because a metal black mask can be used.

The subcombination has separate utility such as in a device with only a leveling film intervening the pixel and transistor.

Group I is distinct from III as evidenced by the claims of group II.

Group II is distinct from III as evidenced by the claims of group I.

Claims 2 and 8 are generic. Upon allowance of a generic claim, rejoinder will be allowed.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Groups I and 3 in 349/110 is not required for Group 2, restriction for examination purposes as indicated is proper.
